For Immediate Release -- 1.25.2008

Polaris 800 Razor Performance

In long runs we see real world top speeds of 65-66 MPH with a Stalker Radar gun. The stock Speedo reads 70-73 MPH at those speeds!

The kit featured in the graph above includes the following;

- Hot Seat Performance Hypershift Clutch Kit - #CKRZREBS \$115.00
- Hot Seat Performance Slip-On Exhaust - #ATVP-RZR \$250.00
- K&N Filter - #PL-1003 \$49.95
- (3) 3" Frogskinz Air Vent Covers #10003 (2-Pack) \$9.95 Each Pack
These are installed between driver and passenger to allow more air into the air box.
- Hot Seat Performance ECU Re-Program #RPI-RZR \$399.95 w/ core exchange (Core Charge \$336.00)
This re-program has a 7000 rpm rev limit, different fuel mapping, and a new timing curve.
- Hot Seat Performance Camshaft Kit #HSPCAM800 \$328.74
This kit comes with a .010" head gasket and piston modification instructions for proper clearance.
The piston modification can be done by Hot Seat Performance or by the end user.
- Hot Seat Performance 3 Angle Valve Job #HSPRZRJV \$375.00
- Boondockers Fuel Control Box #1500-0119 \$398.00
