

Speedwerx 650 H1 ATV / Prowler 650 H1 Field Testing Results

Testing has been going very, very well. A few months ago we made some posts with some H1/ Prowler H1 motor dyno #'s. Here are some in the feild test results for you to look at!

The comparisons are made between a completely stock unit and our Speedwerx performance unit with the following parts:

- Speedwerx Camshaft Kit \$ 333.00
- Speedwerx Head Port w/ Valve Job (Stock Size Valves) \$ 495.00 (AC650ATV-PORT)
- Speedwerx Full Exhaust System \$ 395.00 (Black Painted Header Pipe) \$ 485.00 (Ceramic Coated Header)
- Speedwerx High Flow Intake \$ 175.00-200.00
- Speedwerx Clutch kit For Stock Tires \$ 125.00-155.00
- Speedwerx Hi-Rev CDI \$ 362.95
- Speedwerx 12:1 High Compression Piston \$Call for cost (Not on machine tested in graph above!)
- 11:1 / 12:1 / 13:1 / 14:1 Pistons available!

NOTE: Updated graph and acceleration times coming soon!

Speed kits / package deals are available as well.

These results are in a 500' run

E.T.	Stock Unit	Speedwerx Performance Unit
2 sec.	16.19 mph	21.15 mph
4 sec.	25.89 mph	30.78 mph
6 sec.	31.88 mph	36.95 mph
8 sec.	35.67 mph	40.72 mph
10 sec.	38.08 mph	43.44 mph
12 sec	40.07 mph	n/a

Stock HP @ Crank Shaft

36 @ 5500-5700 rpm

Speedwerx Engine Package HP @ Crank Shaft

57 @ 6500-7000 rpm

HUGE GAINS!

We also have some top speed info as well.

Bone stock unit went 48.90 mph in about 1500'

Speedwerx Performance Unit went 53.50 mph in the same distance.

We have a few more products for the 650 H1 models in the works as well.

Coming soon:

-Flat slide carb kit

If any one has any ?'s in regards to any of these products please let us know.
